## Introduction

Three families compile teaching material *Soul Casting Project* is in recent years in primary and secondary school education in an education project, it is the Chinese modern excellent character and heroic deeds as the material object, through a variety of media form, to show students their lofty ideology and moral character and spirit, let the students to accept knowledge in the at the same time accept the baptism of the spirit. The project content of this project includes heroic deeds display, special study, creation class and other courses. Its implementation aims to cultivate students' ideals and beliefs, patriotism, moral quality and responsibility, and further promote the ideological and moral construction of primary and secondary school students.

### 1. The significance of "casting soul project" in education and teaching

"Casting soul project" is a new cultural education mode in China's education and teaching in recent years. It runs through China's education and teaching system, and aims to cultivate students' ideological and moral sense and social responsibility, which is of great significance.<sup>[2]</sup> In the textbooks compiled by the three subjects, "soul casting project" has become an important part of the textbook, which is widely used in education and teaching, and is deeply loved and respected by the majority of teachers and students. Its advantages are mainly reflected in the following aspects.

Soul casting project can cultivate students' moral concept and quality. In the learning process, the soul casting project requires students to learn the deeds of heroes and advanced models in the aspect of inheriting the national spirit, and

establish good moral concepts and codes of conduct through learning and imitation, not only paying attention to students' spiritual education, but also paying attention to the overall improvement of students' moral quality.<sup>[3]</sup>

Soul casting project can enhance students' confidence and sense of responsibility. The soul casting project not only tells the deeds of heroes and advanced models in the textbooks, but also lets students go to relevant places through relevant activities for on-site education, test the knowledge and theories of learn more in personal contact, temper their courage, enhance their ideology and enhance their self-confidence. In the process of specific activities, students will also strongly feel the importance of "sense of responsibility", thus promoting the enhancement of their own sense of responsibility.

Soul casting project can broaden students' horizons. And the "soul casting project" in the three subjects is mainly carried out in the comprehensive courses such as history, Chinese and physical education. Whether through teaching guidance or actual visits, students can understand the deeds of advanced figures in different fields, increase students' knowledge and broaden their horizons.

## **2. Brief introduction of demining hero Du Fuguo**

Du Fuguo is a demining hero, he used his own life to interpret the deep connotation of "casting soul project". Du Fuguo was born in the countryside in 1971. Due to his poor family, he had no chance to go to college and only chose to join the army. Due to his hard work, he seized the opportunity and was successfully promoted to be the monitor of the mine clearance class.<sup>[1]</sup>

Du Fuguo is one of the outstanding representatives of the new era soul casting project. He firm ideal faith, risked his life to mine mine, regardless of personal safety, in the huge explosion, he used his own body strength blocked the exploding bomb, successfully protect the people's life and property safety, with their lofty love spirit, shows the precious military quality of the Chinese people's liberation army. Du Fuguo's story had a great influence throughout the country, and aroused moral customs and moral strength in the hearts of the cadres and the masses.

Du Fuguo's deeds fully prove the practical significance and value of the "soul casting project". It is not only a new mode of education, but also a new social fashion. In addition to requiring colleges and universities to pay attention to the inheritance and development of traditional culture when cultivating talents, the project also requires education departments to strengthen the education and cultivation of patriotism and other core values while spreading new educational ideas and ideas.

## **3. The material selection and application of du Fuguo's deeds in the "soul casting project"**

### **3.1 Application of material selection of Du Fuguo's deeds in educational practice**

In educational practice, the selection of Du Fuguo's deeds can be said to be a widely used educational tool. It can not only be used in the teaching of Chinese, history, ideology and politics and other disciplines, but also as an important carrier of quality education and moral education.

In practical application, different grades and different courses can be used for different deeds. For example, in the teaching of humanities subjects, such as Chinese, history, ideology and politics, vivid and detailed language can be used to let students deeply understand Du Fuguo's deeds and feel the great power of heroic spirit and revolutionary ideal.

In the specific education practice, we can use a variety of activities, such as lectures, extracurricular reading, test design, practical activities, etc., to effectively improve students' moral quality, and then improve the moral quality of the whole people.<sup>[4]</sup>

In short, the selection of Du Fuguo's deeds as the educational carrier in the "soul casting project" not only plays a positive role in promoting students' moral cultivation, but also encourages students to love the motherland, love life, and go forward for the interests of the motherland and the people.

## **3.2 Experimental research: The influence of the selection of Du Fuguo's deeds on students' moral literacy**

### **3.2.1 Experimental design**

This experiment selected high school students as experimental objects and divided into experimental group and control group, with 50 students in each group. The students in the experimental group learned the story of Du Fuguo in class, while the students in the control group did not learn the relevant content. After a certain time, two groups of students received a moral literacy questionnaire.<sup>[5]</sup>

### **3.2.2 Analysis of the experimental results**

Through the analysis of the questionnaire data, the moral literacy scores of students in the experimental group were significantly higher than that of students in the control group, and the experimental results were highly significant. Specifically, the students in the experimental group were significantly better than those in the control group in several moral quality indicators, such as honesty and trustworthiness, respect for others, sense of responsibility and courage to take responsibility.

### **3.2.3 Experimental conclusion**

Through the analysis of the experimental results, the following conclusions are drawn: the selection of Du Fuguo's deeds can improve students' moral quality, especially in honesty and trustworthiness, respect for others, sense of responsibility, courage to take responsibility has an obvious promoting role.

## **4. The development of the "soul-casting project" in the future of education**

### **4.1 Improvement and innovation of the education mode of "Soul Casting Project"**

"Casting soul project" is an important teaching mode in education, its purpose is to cultivate students' patriotic feelings and moral quality, improve students' comprehensive quality. Therefore, in the continuous practice, the education mode of "casting soul project" is also constantly improving and innovating. Among them, "soul casting project" pays attention to the development of students' initiative and personality in the setting of education mode, actively guides students to participate in various practical activities, constantly excavates students' personality and interest, and cultivates students while constantly stimulating students' innovative consciousness and innovative ability.

In the process of perfecting the education mode of "soul casting soul project", practice is a necessary link. The development and change of the current social environment have also brought new opportunities and challenges to the education of "soul casting project".<sup>[6]</sup> Therefore, the education of "soul casting project" needs to be continuously strengthened and improved, introduce innovative elements, enrich the educational content, and constantly adjust according to the actual situation. At the same time, the innovation of the education mode of "soul casting project" also needs to follow the law of education, pay attention to the development needs of students, respect the personality differences of students, and cultivate students' independent innovation ability as the main goal, so as to lay a foundation for the future development of education.

## **5. The prospect of "soul casting project" education promotion in the whole country**

### **5.1 "Soul Casting Project" is an emerging education model that has attracted much attention in the field of education in recent years.**

"Casting casting project" has been highly recognized and praised by the education department and all walks of life. This education mode emphasizes the cultivation of students' integrity, responsibility, courage, cooperation and other characters, and fully considers the cultivation of students' comprehensive quality, which is very in line with the talent mode needed by today's society. Therefore, we have reason to believe that the "soul casting project" education will be more and

more widely promoted throughout the country. In the process of promotion, we need to unswervingly explore and research, constantly improve the "soul casting project" education mode, further improve the level of education and teaching, and contribute to the cultivation of more and better talents.<sup>[7]</sup>

## **5.2 The development direction and focus of the "Soul Casting Project" education in the future**

With the promotion of "soul casting soul project" in the unified compilation of the three subjects, more and more learners gradually realize its importance and value. The future "soul casting project" education should pay more attention to the development of practicality, people-oriented, personalized, comprehensive promotion and so on.

Pay attention to practicality in education, so that students can consolidate the knowledge they have learned in practical activities, with better practical ability and practical ability. The education of "soul casting project" should be people-oriented, pay attention to the cultivation of students' personal quality and temperament, and what is not only important is the study of knowledge, but also may be a guide to the life path, to broaden students' horizon. Pay attention to personalized education, in the "casting soul project" to cultivate students' personality, but also pay attention to the development of students' personality.

Finally, the comprehensive promotion of "casting soul casting project" education, the education can also be carried out in each corner of the curriculum. For example, in the mathematics class, we can combine the extraordinary changes, cubes and other mathematical knowledge points, and inspire students to expand their own ideas and views through the deeds of excellent people, so as to stimulate the maximum potential of students.
